## Data Definitions V3

Data Entities	Details
User	<p><b>Description</b></p> <ul style="list-style-type: none"> <li>- A general user that is browsing the internet.</li> </ul> <p><b>Requirements</b></p> <ul style="list-style-type: none"> <li>- Able to browse the internet</li> </ul> <p><b>Sub-Data items</b></p> <ul style="list-style-type: none"> <li>- name</li> </ul>
Account	<p><b>Description</b></p> <ul style="list-style-type: none"> <li>- An account that is unique to a user, which will be registered with email and password.</li> </ul> <p><b>Requirements</b></p> <ul style="list-style-type: none"> <li>- Account shall only be created with an SFSU email</li> </ul> <p><b>Sub-Data items</b></p> <ul style="list-style-type: none"> <li>- email</li> <li>- password</li> </ul>
Unregistered User	<p><b>Description</b></p> <ul style="list-style-type: none"> <li>- Users that are not registered with the site, able to browse through events and look at the information, but are unable to utilize some functions of Unigator, such as bookmarking the event and sharing it.</li> </ul> <p><b>Requirements</b></p> <ul style="list-style-type: none"> <li>- Can sign-up to become a registered user using their SFSU email.</li> </ul> <p><b>Sub-Data items</b></p> <ul style="list-style-type: none"> <li>- email</li> </ul>
Registered User	<p><b>Description</b></p> <ul style="list-style-type: none"> <li>- Users that are registered with the site with their SFSU email. Able to browse through events and save them into their own personal calendar and share the events with social media. Able to update their status whether they are attending the event. Every registered user will have a display name.</li> </ul>

	<p><b>Requirements</b></p> <ul style="list-style-type: none"> <li>- Able to report another user.</li> </ul> <p><b>Sub-Data items</b></p> <ul style="list-style-type: none"> <li>- name</li> <li>- email</li> <li>- password</li> </ul>
Event	<p><b>Description</b></p> <ul style="list-style-type: none"> <li>- Activities that are displayed on Unigator that takes place in SFSU. Every event will have to have a name and important information regarding the event; such as who the event host is, location, time, etc. An event can be of single occurrence or recurring.</li> </ul> <p><b>Requirements</b></p> <ul style="list-style-type: none"> <li>- An event host is needed</li> <li>- Needs to be approved by an Administrator</li> <li>- Needs to fall under at least one category.</li> </ul> <p><b>Sub-Data items</b></p> <ul style="list-style-type: none"> <li>- name</li> <li>- status</li> <li>- location</li> <li>- time</li> <li>- desc</li> <li>- date</li> </ul>
Event Host	<p><b>Description</b></p> <ul style="list-style-type: none"> <li>- A registered user that is hosting/registering a(n) event, and provides all the essential information of the event; such as date, time, location and description. Will also be the contact listed for said event.</li> </ul> <p><b>Requirements</b></p> <ul style="list-style-type: none"> <li>- Be able to provide necessary information about the event when requested.</li> <li>- Is able to create an event when desired</li> </ul> <p><b>Sub-Data items</b></p> <ul style="list-style-type: none"> <li>- name</li> <li>- email</li> </ul>

RSVP List	<p><b>Description</b></p> <ul style="list-style-type: none"> <li>- A list showing all registered users who plan to attend an event. A user can RSVP no multiple events even if there is a time conflict.</li> </ul> <p><b>Requirements</b></p> <ul style="list-style-type: none"> <li>- Based on it's own specific event.</li> </ul> <p><b>Sub-Data items</b></p> <ul style="list-style-type: none"> <li>- num_entries</li> </ul>
Administrator	<p><b>Description</b></p> <ul style="list-style-type: none"> <li>- A higher privilege user that oversees the site. Able to decide whether an event is to be listed or not. Able to ban users and send warnings. Moderates the site by utilizing special permissions only available to an admin account. Maintains the integrity of the site while keeping sure everything is in order.</li> </ul> <p><b>Requirements</b></p> <ul style="list-style-type: none"> <li>- Able to do anything a registered user can.</li> <li>- Able to view request list.</li> <li>- Able to respond to requests.</li> <li>- Able to request changes from a user/host.</li> </ul> <p><b>Sub-Data items</b></p> <ul style="list-style-type: none"> <li>- name</li> <li>- email</li> <li>- password</li> </ul>
Category	<p><b>Description</b></p> <ul style="list-style-type: none"> <li>- The categories that an event falls under. For example, an art gallery will be put under the 'Art' category. A recruiting event from a technology company would be under the 'Technology' category.</li> </ul> <p><b>Requirements</b></p> <ul style="list-style-type: none"> <li>- Choosable from predefined list.</li> </ul> <p><b>Sub-Data items</b></p> <ul style="list-style-type: none"> <li>- type</li> <li>- desc</li> </ul>

Activity Points	<p><b>Description</b></p> <ul style="list-style-type: none"> <li>- Every registered user will have their own wallet of Activity Points. These are points that act as a currency to be used in a point shop. Each profile represents a unique representation of a user. The profile can be customized with various options, options that can be purchased from the point shop page with earned activity points. Activity points are earned by interacting with the site and being active, example being checking the RSVP list and attending the event, bookmarking an event, and creating an event etc.</li> </ul> <p><b>Requirements</b></p> <ul style="list-style-type: none"> <li>- Able to be earned through specified activities on the website.</li> <li>- Able to be spent in the points shop.</li> </ul> <p><b>Sub-Data items</b></p> <ul style="list-style-type: none"> <li>- points</li> </ul>
Host Points	<p><b>Description</b></p> <ul style="list-style-type: none"> <li>- Every Host has a list of users that have attended any of their events. The host will be awarding points during their meetings for attendance or participation. These points will be used to reward attendees and increase events' attendees count. The host can enable this feature and these points are only specific to this specific hosts' store.</li> </ul> <p><b>Requirements</b></p> <ul style="list-style-type: none"> <li>- Is enabled by Event Host</li> </ul> <p><b>Sub-Data items</b></p> <ul style="list-style-type: none"> <li>- points</li> </ul>

# **Functional Requirements V3**

## **Priority 1**

<b>Requirements</b>
<b>1) Unregistered Users</b>
1.1) Unregistered Users shall be able to sign up with their SFSU email.
1.2) Unregistered Users shall be able to browse through the event list.
1.3) Unregistered Users shall be able to see all the essential information about an event.
1.4) Unregistered Users shall be able to filter the event list.
1.5) Unregistered Users shall be able to view past events.
1.6) Unregistered Users shall be able to subscribe to Category for updates
<b>2) Registered Users</b>
2.1) Registered Users shall be able to log in with their account.
2.2) Registered Users shall be able to log out of their account.
2.3) Registered Users shall have a name (first name and last name).
2.4) Registered Users shall be able to browse through the event list.
2.5) Registered Users shall be able to filter the event list.
2.6) Registered Users shall be able to see all the essential information about the event.
2.7) Registered Users shall be able to view the email of event hosts.
2.8) Registered Users shall be able to view past events.
2.9) Registered Users shall be able to bookmark/star an event.
2.10) Registered Users shall be able to un-bookmark/un-star an event.
2.11) Registered Users shall be able to RSVP to an event.

2.12) Registered Users shall be able to un-RSVP to an event.
2.13) Registered Users shall be able to view an event's RSVP list.
2.14) Registered Users shall be able to edit their profile.
2.15) Registered Users shall be able to view a user's profile.
2.16) Registered Users shall be able to become host.
2.17) Registered Users shall be able to earn activity points.
2.18) Registered Users shall be able to view the points shop.
2.19) Registered Users shall be able to purchase from the points shop.
2.20) Registered Users shall be able to switch to previous options in the points shop.
<b>3) Administrators</b>
3.1) Administrators shall be able to log in with their account.
3.2) Administrators shall be able to log out of their account.
3.3) Administrators shall be able to view event requests.
3.4) Administrators shall be able to approve an event request.
3.5) Administrators shall be able to reject an event request.
3.6) Administrators shall be able to remove an event.
3.7) Administrators shall be able to see all the information about an event.
3.8) Administrators shall be able to view the email of event hosts.
3.9) Administrators shall be able to view past events.
3.10) Administrators shall be able to ban a registered user.
3.11) Administrators shall have all purchases in the point shop unlocked.
3.12) Administrators shall be able to request/demand changes to an event.
3.13) Administrators shall have all the functionality of a registered user.

<b>4) Event Host</b>
4.1) Event Host shall be a registered user.
4.2) Event Host shall be able to create an event.
4.3) Event Host shall be able to edit the event that they are hosting.
4.4) Event Host shall be able to remove the event that they are hosting.
4.5) Event Host shall have the same functionality as a registered user.
4.6) Event Host shall be able to enable host points feature.
4.7) Event Host shall be able to grant RSVPed users host points

## **Priority 2**

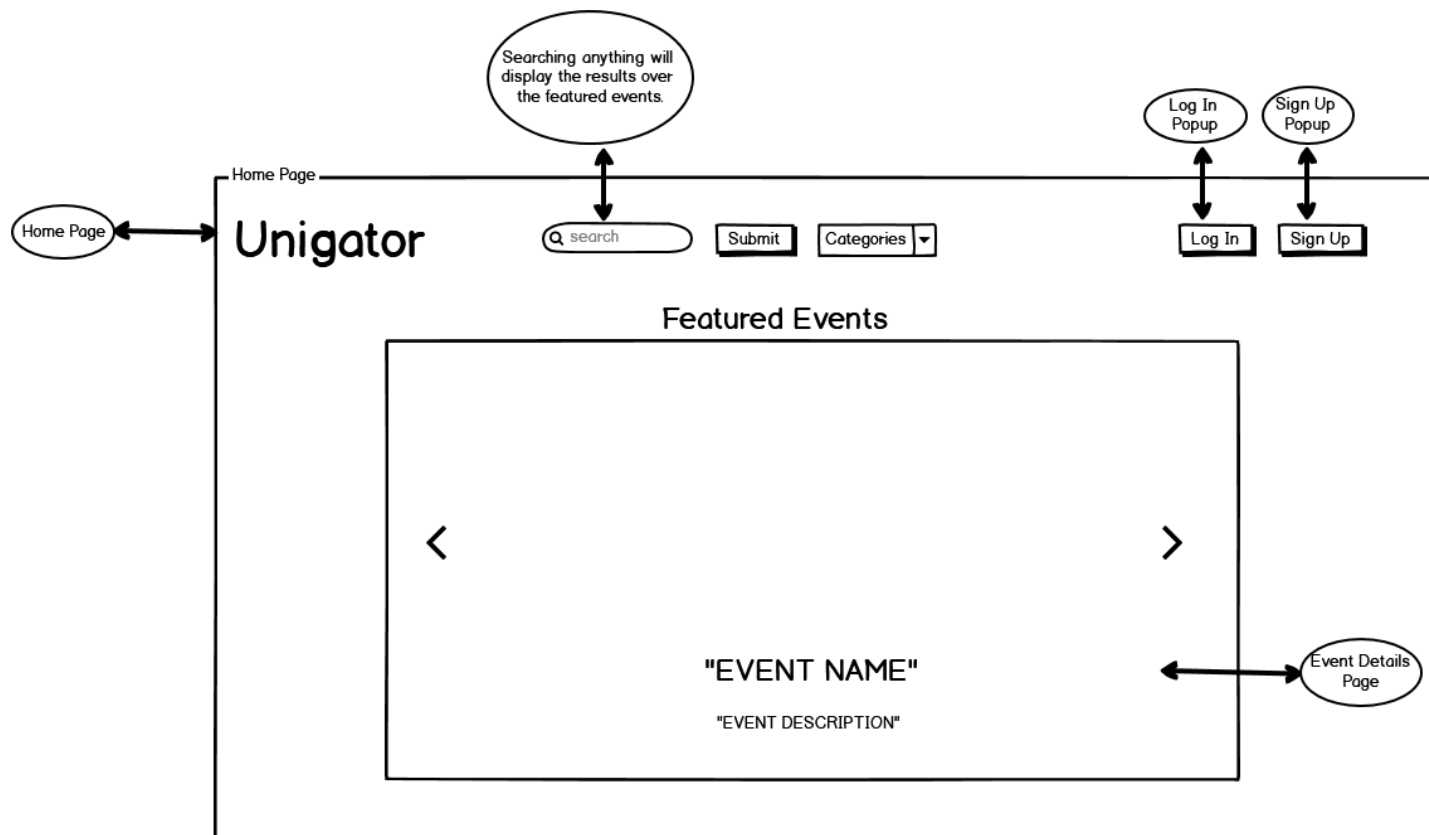

<b>Requirements</b>
<b>1) Unregistered Users</b>
1.1) Unregistered Users shall be able to view the points shop.
<b>2) Registered Users</b>
2.1) Registered Users shall be able to request to change their name.
2.2) Registered Users shall be able to report a(n) event.
2.3) Registered Users shall be able to report a(n) user.
2.4) Registered Users shall be able to utilize the personal calendar function.
2.5) Registered Users shall be able to share with their social media.
<b>3) Administrators</b>
3.1) Administrators shall be able to view all requests from users to change their username.
3.2) Administrators shall be able to approve a user's request to change their username.

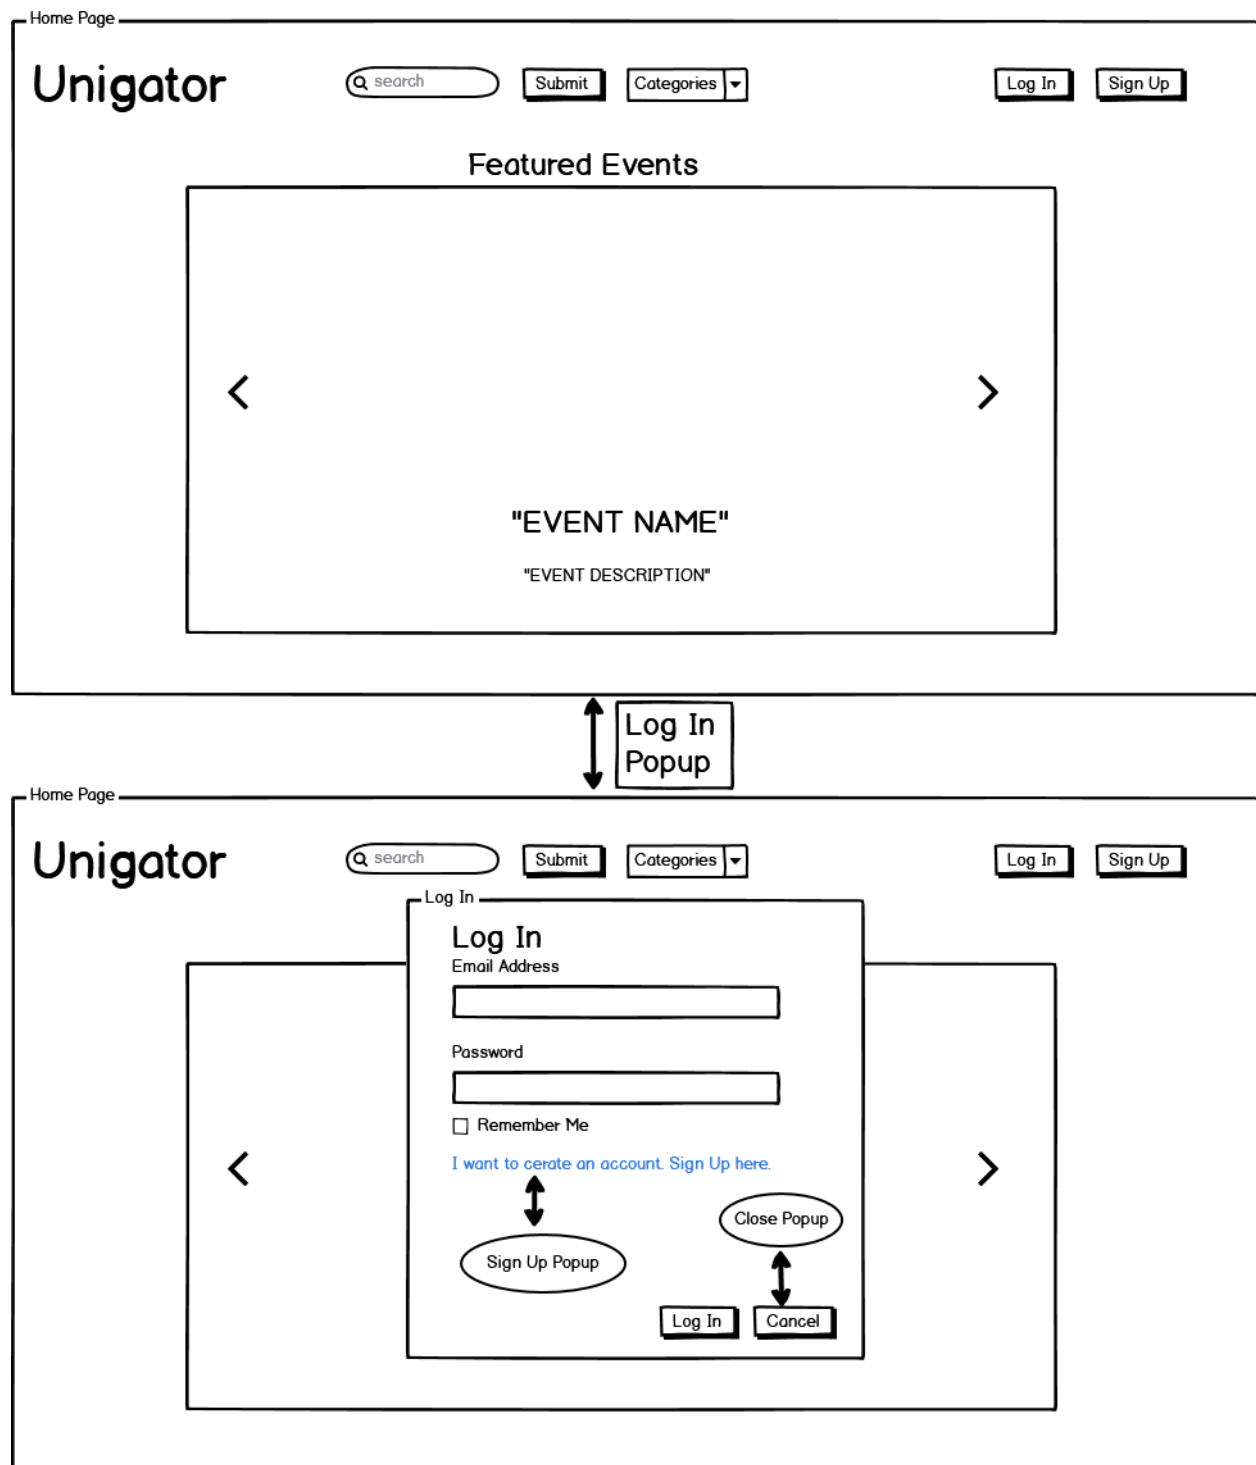

3.3) Administrators shall be able to deny a user's request to change their username.
3.4) Administrators shall be able to change any registered user's username.
3.5) Administrators shall be able to request a user make changes to their profile.
3.6) Administrators shall be able to view reported events.
3.7) Administrators shall be able to view reported users.
<b>4) Event Host</b>
4.1) Event Host shall be able to request special changes from the Administrator.
4.2) Event Host shall be able to transfer/assign a new event host.

### **Priority 3**

<b>1) Unregistered Users</b>
1.1) Unregistered Users shall be able to make a request to an Admin to create an account without an SFSU email.
<b>3) Administrators</b>
3.1) Administrators shall be able to view all requests to use a non-SFSU email to register.
3.2) Administrators shall be able to approve a request to use a non-SFSU email to register.
3.3) Administrators shall be able to deny a request to use a non-SFSU email to register.
